G. A. STILES,  
Selectmen of Rollinsford.

—o—

The undersigned, Auditors of Town Accounts, have examined the books of the Secretary and Treasurer for the year ending February 26, 1890, and find all cash entries sustained by appropriate vouchers, and castings correctly made and footings agree.

NATHAN HILL,  
W. R. GARVIN,

Auditors.

REPORT  
OF  
THE SCHOOL BOARD  
OF THE  
TOWN OF ROLLINSFORD,  
FOR  
THE YEAR ENDING MARCH 12, 1890.

---

The School Board of the town of Rollinsford, have performed the duties incumbent upon them, and herewith submit the following report.

The teachers who have instructed in district No. 2, during the past year, are as follows: Miss Alice Hough of Great Falls taught the Spring and Summer terms of Sullivan school, and then resigned her position. Miss Nellie B. Arthur of this town was employed to succeed her, and taught the Winter term.

Miss Lizzie Litchfield of South Berwick has had charge of the Quampegan school through the year.

The Rollins school has been under the care of Miss Lizzie M. Warren of this town throughout the year.

Miss Clara W. Garvin, of this town, conducted the Turnpike school all the year.

These teachers were all experienced and well qualified for the positions they have occupied, and have been diligent and faithful laborers in the trusts committed to their care.

While some of the schools, which were larger in numbers, have decreased, others, which were smaller, have increased, thus making the work among the teachers more evenly divided. The pupils in all the schools have manifested special interest in their lessons and consequently have made marked proficiency in the studies pursued. The prevailing sickness in all our schools during the winter term, will make the average attendance for the year appear smaller than usual.

Our Legislature did a very wise act at its last session, in passing a law which gives every child in the state who attends school the use of free text books. It has many decided advantages over the previous method, in which every parent furnished books for his own children or those under his care, for many are not really able to buy books for their children. The cost is quite an item in family expenses. For this reason pupils were frequently not suitably supplied, which had a tendency to retard their progress, and teachers were slow to ask for books when needed, for the reason of a manifest unwillingness on the part of many parents to purchase them for their children, for by so doing they well knew they would make themselves unpopular with the parent over whose children they were placed. Those who asked not for books, but permitted the children to study their lessons in mere scraps of books, borrow from classmates, or look on with others while reading, became popular and were applauded and carressed. When the town furnishes text books for the use of their schools all this fear or dread of asking for books when necessary is at once taken away. The tax-payers bear the burden of expense equally, whether they send children to school or not, which is as it should be. Another consideration of no small importance is, that the books at wholesale price, as purchased by the town, cost not more than two-thirds of what they have in the past at retail price. Notwithstanding the law gave the school board full liberty to

change any or all of the school books in use at the time of its passage, they did not think it expedient to do so, as many of our books had but recently been introduced and gave entire satisfaction, and to make a full change would incur much expense to the town without any real benefit; therefore we made a change only in some few books which had been in use a long time and substituted others in their stead which we believed more interesting and better adapted to the wants of the schools. In closing this brief report we would remark that there are repairs necessary to be made on some of our school buildings which to defer longer will not be economy, for they can now be done better and at less cost than at some indefinite time in the future. We hope, therefore, the district will vote to raise and appropriate the small sum of money that may be needed for this purpose, and in addition will also vote to raise such sums of money as may be necessary to pay the yearly insurance on all our school houses.

A. W. PIKE,  
W. R. GARVIN.

School Board of Rollinsford.

Rollinsford March 11, 1890.

REPORT  
OF THE  
SUPERINTENDING SCHOOL COMMITTEE  
FOR  
SCHOOL DISTRICT NO. 1,  
IN THE TOWN OF ROLLINSFORD,  
For the Year ending March, 1890.

---

The schools in our district the year just ended have been under the same instruction, with the exception of one term, that they have been for several years past, and on the whole we think the results are very satisfactory, and that the citizens have no cause to find fault, but rather have cause to commend and encourage our teachers in the good work they are now doing.

The Primary school with an average attendance of 63 has been taught by Miss Nellie F. Lord.

The Intermediate school has been under the management of Miss Anna L. Wentworth with the exception of one term which on account of sickness was taught by Miss Emma F. Riley; average attendance 33.

Mrs. Sara F.G. Nowell has had an average attendance of 26 in the Grammar school and Mr. H. L. Allen an average of 20 in the High school.

O. S. BROWN,  
J. Q. A. WENTWORTH,  
F. E. BRIGHAM,  
Superintending School Committee Dist. No. 1.
